

Road-testing the new National Professional Standard for Principals

This process now enters a critical and exciting stage with the piloting or 'road-testing' of the Standard. A series of projects across Australia will be funded and undertaken in the first half of 2011. These will take place in a variety of

Three key questions relate to the authenticity, usefulness and value adding of the Standard. In short, does it work? Findings from the various projects will be shared with the Australian educational

provide an effective framework for professional learning, reflection on practice and which will inform practices to attract, prepare and develop effective principals to lead Australia's schools in the 21st Century.

Proposals to run pilots to test the National Professional Standard for Principals have been received from 9 organisations and are currently being reviewed.

School leaders who focus on students' achievement and instructional strategies are the most effective ... It is leaders who place more attention on teaching and focused achievement domains ... who have the higher effects. (Hattie, 2009: 83)

contexts and the exposure draft of the Standard will be applied to a range of intended purposes, the common feature of which will be use of the Standard with principals and aspiring principals.

community in 2011 and will inform further work on the Standard. Through this process, it is envisaged that Australia will have a true National Professional Standard for Principals which will

Professor Stephen Dinham is the Chair of Teacher Education and Director of Learning and Teaching at the University of Melbourne. He has been working with AITSL on the National Professional Standard for Principals and will coordinate the pilot studies.

Given developments in Australia such as national testing and national curriculum, the time is ripe for a national standard for principals, writes **Stephen Dinham**.

Stephen Dinham

School leadership is recognised as a vital factor in improving school effectiveness and student achievement. All teachers exercise leadership although as teachers become more experienced and adept it is likely that their leadership involvement and influence will increase beyond the classroom, across the school and even further.

While all teachers exercise leadership, some teachers will seek appointment to formal positions of responsibility in schools. Standards such as those for Highly Accomplished Teachers and Lead Teachers contain leadership aspects. However there is also a need to consider standards for principals, who play vital roles in creating the conditions where teachers can teach and students can learn (Dinham, 2008). Increasingly, while principals continue to perform a variety of managerial roles, they are seen to be most effective where they place major emphasis on instructional leadership, i.e., teaching and learning:

School leaders who focus on students' achievement and instructional strategies are the most effective ... It is leaders who place more attention on teaching and focused achievement domains ... who have the higher effects. (Hattie, 2009: 83).

Professional standards for school principals can play key roles in aiding reflection and self-development, formulating suitable professional learning experiences, attracting and selecting suitable candidates for positions of responsibility and assessing the effectiveness of school leaders. Standards also articulate the values, knowledge and practices of school leaders to the wider community.

One of the challenges in writing a standard for

principals is to capture the sheer diversity of the contexts in which Australian principals operate – from teaching principals to those heading multi-campus schools, low to high SES, low to high NESB, urban to regional to isolated, struggling to successful schools, government to other systems to independent schools.

Nevertheless, the above has not deterred Australia's developers of standards. Quite the reverse in fact. When ACER conducted a mapping and consolidation of Australian leadership/principal standards for DEEWR in 2009, we examined more than sixty extant standards and frameworks currently being used for a variety of purposes. Like others, we concluded that given developments in Australia such as national testing and national curriculum, the time was ripe for a national standard for principals to accompany national standards for teachers at a number of key career stages, and national accreditation of teacher education courses, developments we had advocated previously in a report for the Business Council of Australia (Dinham, Ingvarson & Kleinhenz, 2008).

AITSL commenced work on the development of the National Professional Standard for Principals in early 2010. This work was led by Dame Professor Patricia Collarbone, an acknowledged expert in the field. AITSL established an external expert steering group to guide and support this work and there has been an intensive and extensive process of research, drafting, critical review and feedback from organisations and jurisdictions across Australia. A feature of this work to date has been the universal support for the initiative from across all sectors.

Leading Australia's Schools

aitsl

Australian Institute
for Teaching and
School Leadership
Limited

The Leading Australia's Schools program challenges and inspires principals and provides an opportunity to build professional knowledge and skills.

The program

The program explores current and future trends in leadership, planning and implementing change, developing team and leadership capability, operating strategically, and personal growth.

The program includes pre-course work, a 5-day residential program, a 2-day recall session and a school-based leadership project.

The people

Offered by AITSL, in partnership with the Hay Group and the University of Melbourne the program is open to all principals across Australia.

Two cohorts of 40 principals each will be selected in 2011.

The place

The residential components of the program are conducted at the University of Melbourne Business School, Carlton, Victoria.

Program costs

AITSL provides all program costs, travel and accommodation for successful applicants.

Key dates 2011

Cohort 1 will run 15 - 20 May and 10 - 12 August 2011 and Cohort 2 will run 31 July - 5 Aug and 26 - 28 October 2011.

Applications for are now open at

aitsl.edu.au

Applications are to be submitted by 18 February 2011.
