About State Profiles

The State Profiles provide state and territory level information as part of the overall picture of the teaching profession provided in the *Australian Teacher Workforce Data: National Teacher Workforce Characteristics Report (December 2021)*.

The profile for each jurisdiction provides descriptive statistics on the teaching workforce in that jurisdiction, compared to the results from across all participating jurisdictions for 2018.

For 2018, the *Australian Teacher Workforce Data: National Teacher Workforce Characteristics Report (December 2021)* includes data from, and reports only on, the workforce characteristics across South Australia, New South Wales, the Northern Territory, and Victoria. From 2020 the ATWD will report on national workforce trends and include data from all states and territories.

The section numbers within the state profiles correspond to the chapter numbers in the main report.

Victoria

2. About the data

The data in this state profile is drawn from 2018 teacher registration data from the Victorian Institute of Teaching. While the Victorian Institute of Teaching, the regulatory authority in Victoria, supplied workforce registration data, Victoria did not participate in the ATWD Teacher Survey until 2019.

3. All registered teachers

In 2018, the total number of teachers registered with the Victorian Institute of Teaching and currently practising was 127,837.¹ Their demographic characteristics are provided in **Figure VIC-1**.

Figure VIC-1 All registered and practising teachers in Victoria, 2018

Source: Teacher Registration Authority

¹ The Victorian Institute of Teaching data did not include teachers who were registered but not practising, and so the size of this pool may be underestimated.
