Guide to the Renewal of Certification of Highly Accomplished and Lead Teachers in Australia
This Guide is based on the Certification of Highly Accomplished and Lead Teachers in Australia, endorsed by the Education Council (formerly the Standing Council on School Education and Early Childhood) on 20 April 2012, and provides elaboration on the renewal of certification process to support all personnel involved.

The Australian Institute for Teaching and School Leadership (AITSL) consulted with the Certifying Authorities Network to develop the nationally consistent approach to the renewal of certification.

The Australian Institute for Teaching and School Leadership was formed to provide national leadership for the Commonwealth, state and territory governments in promoting excellence in the profession of teaching and school leadership with funding provided by the Australian Government.

The Guide to Renewal of Certification provides information and support for those involved in the renewal of certification process: applicants, certifying authorities, principals and referees.
Renewal of certification

Certification at the Highly Accomplished and Lead career stages of the Australian Professional Standards for Teachers (the Standards) is granted for a fixed period of five years. Teachers intending to maintain their national certification must apply for renewal of certification according to the processes outlined in this Guide.

This Guide provides information and support for those involved in the renewal of certification process: applicants, certifying authorities, principals and referees.

This Guide should be used with reference to:

- Certification of Highly Accomplished and Lead Teachers in Australia
- Australian Professional Standards for Teachers
- Classroom Practice Continuum
- Guide to the Certification of Highly Accomplished and Lead Teachers in Australia
- Certification documentary evidence supplement: Highly Accomplished teachers
- Certification documentary evidence supplement: Lead teachers
- Australian Teacher Performance and Development Framework
- Relevant state/territory requirements.

Certified teachers are able to renew their certification status every five years provided they continue to meet the renewal requirements. Certification and renewal processes may be subject to review as a result of ongoing monitoring of the national certification process.

Purpose

The purpose of the renewal of certification process is to verify an applicant’s ongoing performance at the Highly Accomplished or Lead career stage. This process is part of the quality assurance mechanisms within the national certification process. These mechanisms are essential to ensure a rigorous, valid and credible evaluation of an applicant’s teaching practice is made in granting the renewal of certification.

As part of the renewal of certification, the certifying authority may request release of information from other certifying authorities.

---

Highly Accomplished teachers are recognised as highly effective, skilled classroom practitioners and routinely work independently and collaboratively to improve their own practice and the practice of colleagues. They are knowledgeable and active members of the school.

Highly Accomplished teachers contribute to their colleagues’ learning. They may also take on roles that guide, advise or lead others. They regularly initiate and engage in discussions about effective teaching to improve the educational outcomes for their students.

They maximise learning opportunities for their students by understanding their backgrounds and individual characteristics and the impact of those factors on their learning. They provide colleagues, including pre-service teachers, with support and strategies to create positive and productive learning environments.

Highly Accomplished teachers have in-depth knowledge of subjects and curriculum content within their sphere of responsibility. They model sound teaching practices in their teaching areas. They work with colleagues to plan, evaluate and modify teaching programs to improve student learning. They keep abreast of the latest developments in their specialist content area or across a range of content areas for generalist teachers.

Highly Accomplished teachers are skilled in analysing student assessment data and use it to improve teaching and learning. They are active in establishing an environment which maximises professional learning and practice opportunities for colleagues. They monitor their own professional learning needs and align them to the learning needs of students.

They behave ethically at all times. Their interpersonal and presentation skills are highly developed.

Lead teachers are recognised and respected by colleagues, parents/carers and the community as exemplary teachers. They have demonstrated consistent and innovative teaching practice over time. Inside and outside the school they initiate and lead activities that focus on improving educational opportunities for all students.

They establish inclusive learning environments that meet the needs of students from different linguistic, cultural, religious and socio-economic backgrounds. They seek to improve their own practice and to share their experience with colleagues.

They are skilled in mentoring teachers and pre-service teachers, using activities that develop knowledge, practice and professional engagement in others. They promote creative, innovative thinking among colleagues.

Lead teachers apply skills and in-depth knowledge and understanding to deliver effective lessons and learning opportunities and share this information with colleagues and pre-service teachers. They describe the relationship between highly effective teaching and learning in ways that inspire colleagues to improve their own professional practice.

They lead processes to improve student performance by evaluating and revising programs, analysing student assessment data and taking account of feedback from parents/carers. This is combined with a synthesis of current research on effective teaching and learning.

Lead teachers represent the school and the teaching profession in the community. They are professional, ethical and respected individuals inside and outside the school.
02 Renewal of certification process

Each of the elements below are described in the relevant section of the Guide on pages 6 to 12.

Commencing the process
Advising the relevant certifying authority of intention to renew

Pre-Assessment
Eligibility, professional discussion and selection of referees

Submission and assessment
Submission of renewal documentation

Renewal of Certification
Decision making and recommendation
Nationally certified teachers are required to contact their relevant certifying authority twelve months prior to expiration of their certification to indicate whether they intend to renew2.

Where possible, certifying authorities will also contact nationally certified teachers eligible for renewal up to six months prior to expiration of the applicant’s certification to confirm their intention to renew.

Certification renewal is premised on being responsive to the circumstance of the individual applicants e.g. in terms of any substantial leave or other arrangements that may have occurred in the five year period since certification was awarded.

In extenuating circumstances, assessed on a case by case basis, nationally certified teachers have up to six months after the expiration of their current certification to complete the renewal process and be granted renewal of certification. If the process is not completed in this time, the certifying authority will notify the teacher, and any other relevant bodies, of the expiration of the teacher’s certification.

In the event a teacher is awarded an extension or is on extended leave, for example maternity leave, the impact on national certification status will be consistent with existing registration and/or employment arrangements within the jurisdiction.

In cases where industrial agreements and/or remuneration are linked to national certification, the applicant must contact their employer to access information specific to their jurisdiction and/or sector.

Certified teachers are eligible to renew their certification at the career stage at which they were originally certified.

Teachers certified at the Highly Accomplished career stage are encouraged to consider undertaking the national certification process at the Lead career stage, if relevant.

---

2. Contact details of certifying authorities can be accessed at the AITSL website.
Eligibility requirements

To be eligible to apply for renewal of certification, an applicant must:

- have been nationally certified as a Highly Accomplished or Lead teacher for the previous five year period
- have met legislative requirements to be fully registered in their jurisdiction, including the requirements for professional practice and professional learning
- have continued to receive satisfactory annual performance assessments in the previous five years
- meet the authentic teaching role requirement as described opposite.

Annual performance assessments

Annual performance assessments should be based on the essential elements of the Australian Teacher Performance and Development Framework and conducted using school/system processes. They are not required in a specific format. In circumstances where teachers have not received an assessment, the referees will provide verification of past satisfactory performance.

Teaching requirements

An applicant must have an authentic role in a classroom situation where they are responsible for an ongoing teaching program and the assessment of the students over a period of time.

There is no requirement for a specified number of hours or teaching load.

Providing an applicant can demonstrate all Standards through an ongoing teaching role with students in a classroom situation, renewal of certification is available to individuals in a range of roles including school support professionals, regional support officers, consultants and advisory teachers and those in equivalent roles who work with students. However, holding a position such as this is not a guarantee that an application for renewal of certification will be successful.

Prior to commencing their renewal of certification application, teachers determine their eligibility to apply.

Eligibility requirements

Guidelines:

1. In accordance with the regulatory regimes in individual jurisdictions. In New South Wales full registration is Proficient Teacher Accreditation. Some teachers in NSW are currently not required to be accredited, and these teachers are not excluded from this certification process if they meet the other eligibility requirements. Following amendments to the Teacher Accreditation ACT 2004, all teachers in NSW are required to be accredited as of Day 1, Term 1, 2018.

2. Annual performance assessments should be based on the essential elements of the Australian Teacher Performance and Development Framework and conducted using school/system processes. They are not required in a specific format. In circumstances where teachers have not received an assessment, the referees will provide verification of past satisfactory performance.

3. “Classroom situation” is intended as a broad and inclusive term and does not refer solely to a mainstream school classroom. For example teaching students in early childhood settings, distance education, and hospital schools, and the many other settings and situations in which the teaching of students occurs.

4. Providing an applicant can demonstrate all Standards through an ongoing teaching role with students in a classroom situation, renewal of certification is available to individuals in a range of roles including school support professionals, regional support officers, consultants and advisory teachers and those in equivalent roles who work with students. However, holding a position such as this is not a guarantee that an application for renewal of certification will be successful.

Guide to the Renewal of Certification of Highly Accomplished and Lead Teachers in Australia 7
Discussion with principal

It is recommended that an applicant discuss their intention to apply for renewal of certification with their principal/supervisor or delegate, as nominated by the principal/supervisor. Whilst this is not mandatory, it is recommended as the principal/supervisor or delegate will be contacted as a referee during assessment.

Selection of referees

An applicant is required to provide details of three to five referees, including their current principal/supervisor or delegate, as nominated by the principal/supervisor, as part of their application.

In selecting referees, an applicant should be mindful that, collectively, the referees will need to be able to attest to the applicant’s currency of knowledge and depth of practice across the previous five year period. At the Lead career stage, at least one of the nominated referees must have knowledge of the school Lead initiative/s led by the applicant. The referees must have direct knowledge of the applicant’s professional practice.
Submission of renewal documentation

An applicant is required to submit the following:

- professional practice written statement
- professional learning written statement
- the details of three to five referees, including the current principal/supervisor or delegate, as nominated by the principal/supervisor.

Written statements

The information presented in the professional practice and professional learning statements must be drawn from the previous five year period and be authentic, verifiable, robust, and demonstrate the impact of the applicant’s teaching practice on student outcomes and colleagues.

The written statements will use the language of the Australian Professional Standards for Teachers at the relevant career stage, and cite examples of evidence where appropriate.

Professional practice statement

The professional practice statement will describe how an applicant’s practice, at the relevant career stage, has continued to align with each of the Standards in the previous five year period.

The professional practice statement will include:

- an overview of the context and background of the applicant’s practice
- at least three detailed written examples of the applicant’s practice that demonstrate the impact of their practice on student outcomes and the practice of colleagues. This will include reference to Lead initiatives undertaken in the previous five year period for renewal of certification at the Lead career stage. The individual contribution of the applicant in the examples should be made explicit.

The professional practice statement should be no more than 1500-3500 words.
Referees

An applicant is required to submit the contact details of three to five referees, including the current principal/supervisor or delegate, as nominated by the principal/supervisor, to:

• support and attest to the accuracy of the written statements
• make comment on the applicant’s ongoing performance against the Standards.

Collectively, the referees will need to be able to verify the applicant’s currency of knowledge and depth of practice across the previous five year period. At the Lead career stage, at least one of the nominated referees must have knowledge of the Lead initiative/s led by the applicant.

An applicant may wish to provide referees with information to support this process. Jurisdictions may require all nominated referees to provide comment or submit written statements.

Information to support the renewal of certification process specific to states/territories may be available. Applicants are encouraged to refer to information from their relevant certifying authority.

Professional learning statement

The professional learning statement will describe how an applicant’s practice at the relevant career stage has been informed and improved by professional learning in the five year period since certification was awarded.

The professional learning statement is not intended to be a record of professional learning. Rather, it should be a reflection by the applicant on the professional learning undertaken and its impact on their practice.

This reflection will need to include:

• a rationale for this selection of professional learning in relation to identified areas of improvement from the Descriptors at the career stage that certification was awarded against
• the nature of the professional learning undertaken, designed and/or delivered, by the applicant
• how the applicant has used the knowledge gained through the professional learning to improve student outcomes
• how the applicant has used the knowledge gained through the professional learning to increase the capacity of colleagues and/or contribute to the broader teaching profession e.g. networks, hubs, clusters, professional associations, including who was involved and how they were involved; for applicants at the Lead career stage this will include examples of how they progressed school and system priorities
• how the applicant evaluated (or will evaluate) the impact of the professional learning on their practice, the practice of their colleagues, and on student outcomes
• the focus of subsequent professional learning and how this extends the learning described above.

The professional learning statement should be no more than 1500-3500 words.
Assessment

An application for renewal of certification will be independently assessed by an assessor trained under the national Assessor Training Program. The assessor will be external to the applicant’s school or setting, and will be appointed by the relevant certifying authority.

The assessor will:

• assess the applicant’s written statements
• seek comment from at least two of the listed referees, including the current principal/supervisor or delegate, as nominated by the principal/supervisor, and document the outcome of the discussion
• make a recommendation in writing to the certifying authority on the application for renewal of certification.

If the assessor is unable to make an assessment decision, they may contact the applicant and/or referee/s to seek clarification on the documentation submitted. In addition, a second assessor may be nominated by the certifying authority to reassess the application. In this instance, the two assessors will confer on the application to come to an assessment decision.
Renewal of Certification
Decision making and recommendation

Consistent with the national certification process, the decision on renewal of certification rests with the relevant certifying authority. This decision will be based on the application meeting the requirements of the renewal process and the recommendation by the assessor.

Renewal of certification decision

The certifying authority will endorse or decline the recommendation by the assessor and will notify the applicant of the outcome. On confirming a recommendation in favour of certification, the certifying authority will formally renew the teacher’s certification for a period of five years.

In the event that renewal of certification is not granted, the certifying authority will notify the teacher and any other relevant bodies, including their employer, of the cessation of certification.

In order to conform to the managerial, administrative and legal processes of the jurisdiction or employing authority, and on the proviso that all elements of the common national process are adhered to, a jurisdiction may locate the final decision on renewal of certification with a specified person or persons. The decision maker will fully consider the advice of the external assessor and will undertake all the final decision making steps required by the common national process.

The certifying authority will provide successful and unsuccessful applicants with a report of their assessment against the Standards and notification of the recommendation. This report will provide detail regarding strengths and what areas require further improvement.

Information to support the renewal of certification process specific to states/territories may be available. Applicants are encouraged to refer to information from their relevant certifying authority.

Appeals

Appeals will be made available according to the legislation and processes existing in the jurisdiction where the decision is made.

Information to support the renewal of certification process specific to states/territories may be available. Applicants are encouraged to refer to information from their relevant certifying authority.
03 Roles and responsibilities

The renewal of certification process involves a number of defined roles and responsibilities as outlined below.

Applicant

The applicant has a role in each stage of the renewal of certification process.

Commencing the process

• contacting the relevant certifying authority to advise of their intention to apply for renewal of certification, 12 months prior to expiry.

Pre-Assessment

• assessing eligibility to apply for renewal of certification - please refer to the eligibility requirements on page 7
• having a professional discussion with the principal/supervisor or delegate, as nominated by the principal/supervisor, regarding intention to apply for renewal of certification. This is not mandatory but recommended as the principal/supervisor or delegate will be contacted as a referee
• selecting three to five referees, ensuring that the referee has the appropriate level of experience, knowledge of the Standards, and knowledge of the applicant’s practice in the previous five year period.

Submission and assessment

• submitting a professional practice written statement, as outlined on page 9
• submitting a professional learning written statement, as outlined on page 10
• providing details of three to five referees, including the principal/supervisor or delegate, as nominated by the principal/supervisor.
Assessor
There is only one assessor involved in the renewal of certification process. If the assessor cannot reach a decision, then a second assessor will become involved in the process.

Principal
The principal will be available for a professional discussion with the applicant as part of their pre-assessment process and will also be a referee for the applicant.

There will be situations where a principal or equivalent is not available to fulfil the role outlined in this process. In these cases, the principal/supervisor may delegate their responsibilities to an equivalent member of the senior leadership team of the school/setting who has significant knowledge of the applicant’s practice.

In cases where an applicant is a teaching principal the applicant should seek support from a senior person who is in a position to comment authoritatively on their teaching.

Referees
Referees will have direct knowledge of the applicant’s practice and the evidence cited against nominated Standards/Descriptors. Referees may include but are not limited to classroom teachers, school leaders, education consultants, teacher educators, and/or specialist staff, and must include the principal/supervisor or delegate, as nominated by the principal/supervisor.

Assessment
• completing an individual and independent assessment of the documentation submitted by the applicant against the Standards at the relevant career stage
• contacting at least two referees to support and attest to the accuracy of the applicant’s written statements and seeking comment on the applicant’s ongoing performance against the Standards
• contacting the applicant to seek clarification on the application, if required
• making a recommendation in writing to the certifying authority on the application for renewal of certification.

Pre-Assessment
• being available for a professional discussion with the applicant regarding their intention to apply for renewal of certification.

Assessment
• acting as a referee to support and attest to the accuracy of the applicant’s written statements and make comment on the applicant’s performance against the Standards.
Certifying authority

In each participating jurisdiction, there are one or more bodies managing the certification and renewal of certification processes referred to as the certifying authority. The certifying authority/authorities are responsible for implementing and managing the national certification process in that jurisdiction. The state/territory certifying authority is the first point of call for all interested parties.

Within the renewal of certification process, certifying authorities are responsible for:

- conducting information sessions for teachers applying for renewal of certification
- disseminating information and making guides available to applicants
- receiving applications for renewal of certification and ensuring an applicant meets eligibility criteria
- nominating an external assessor to each application
- releasing information if requested from other certifying authorities for applicants applying for renewal of certification
- conducting the Assessor Training Program for assessors and jurisdictional officers
- maintaining a jurisdictional database of applicants who have applied for renewal of certification, and those that have had their certification renewed and at which career stage
- providing renewal of certification summary data to AITSL annually
- participating in quality assurance and review processes to support national consistency
- reporting to AITSL on implementation of the nationally consistent processes for renewal of certification.

Decision making

- endorsing/declining the recommendation of the external assessor based on the assessment of the applicant
- providing successful and unsuccessful applicants with a report of their assessment against the Standards and notification of the outcome for unsuccessful applicants. This report will provide detail regarding strengths and what areas require further improvement
- formally renewing the certification of successful applicants
- notifying other relevant bodies of the outcome of renewal of certification applications
- enabling appeals according to the legislation and processes existing in the jurisdiction where the decision is made
- convening new assessment processes where an appeal is upheld
- organising or participating in appeals processes.

Information to support the renewal of certification process specific to states/territories may be available. Applicants are encouraged to refer to information from their relevant certifying authority.
Australian Institute for Teaching and School Leadership

Within the renewal of certification process, AITSL is responsible for:

- establishing, reviewing and maintaining the *Australian Professional Standards for Teachers*, the renewal of certification process and supplementary materials
- providing support materials for nationally consistent training of assessors and jurisdictional officers
- maintaining summary data on the renewal of certification of Highly Accomplished and Lead teachers and providing this to the Australian Government Department of Education and Training (DET)
- reviewing all aspects of nationally consistent certification and working with jurisdictions to implement improvements
- reporting annually to the Education Council on the implementation of nationally consistent processes for the renewal of certification of Highly Accomplished and Lead teachers.
Annual performance assessment

Annual performance assessments should be based on the essential elements of the Australian Teacher Performance and Development Framework and conducted using school/system processes. They are not required in a specific format. In circumstances where teachers have not received an assessment, the referees will provide verification of past satisfactory performance.

Applicant

In relation to the renewal of certification, an applicant is a teacher currently certified at the Highly Accomplished or Lead career stage through the national certification process and due to renew their certification.

Assessor

The individual nominated by the certifying authority to undertake an assessment of the renewal of certification application. The assessor is external to the school/setting of the applicant and is trained under the national Assessor Training Program.

 Certifying authority

In each participating jurisdiction, there are one or more bodies managing the certification process referred to as the certifying authority. The certifying authority is responsible for implementing and managing the national certification and renewal of certification processes in their jurisdiction.

Delegate

The delegate is to be nominated by the principal/supervisor. May be the Deputy/Assistant Principal or equivalent member of the senior leadership team of the school/setting who have significant knowledge of the applicant’s practice.

Full registration

Full registration is achieved when a teacher has met the Proficient career stage of the Australian Professional Standards for Teachers and all other requirements for teacher registration, in accordance with the regulatory regimes in individual jurisdictions. In New South Wales full registration is Proficient Teacher Accreditation.

Some teachers in NSW are currently not required to be accredited, and these teachers are not excluded from this certification process if they meet the other eligibility requirements. Following amendments to the Teacher Accreditation ACT 2004, all teachers in NSW are required to be accredited as of Day 1, Term 1, 2018.

Portable

It is intended that certification will be portable, allowing teachers to maintain their status as a Highly Accomplished or Lead teacher if they move between participating jurisdictions and sectors. This does not mean that any industrial arrangements attached to certification, such as a particular rate of pay, are automatically transferable. The way in which certified teachers are recognised or rewarded is an employment matter.

Principal

A principal is the person designated by the employing authority as being primarily responsible for the overall control and administration of the school. “Principal” in this document also includes the equivalent position to principal in early childhood and other settings.

There will be situations where a principal or equivalent is not available to fulfil the role outlined in this process. In these cases, the principal/supervisor may delegate their responsibilities to an equivalent member of the senior leadership team of the school/setting who has significant knowledge of the applicant’s practice.

In cases where an applicant is a teaching principal the applicant should seek support from a senior person who is in a position to comment authoritatively on the applicant’s teaching.
Referees
Referees may include, but are not limited to, classroom teachers, school leaders, education consultants, teacher educators, and/or specialist staff. Referees must have direct knowledge of the applicant’s professional practice and will need to be able to attest to the applicant’s currency of knowledge and depth of practice across the previous five year period.

School
School is used inclusively to refer to Australian primary and secondary schools, and other educational settings where teacher registration applies.

Setting
Setting is used inclusively to refer to early childhood provision, including long day care and preschools and kindergarten, as well as other settings where teachers work. Certified teachers working in these settings who wish to apply for renewal of certification must hold full registration and meet the ‘authentic teaching role’ requirement for certification.

Student outcomes
Within the national certification process and renewal processes, student outcomes are broadly defined and include learning, engagement in learning and wellbeing.

Summary data
Data that will be collected and available to certifying authorities, AITSL and reported to the Australian Government Department of Education and Training (DET). This data may include, but is not limited to: name, gender, work location, certification decision, career stage applied/achieved and year of certification/renewal of certification. Certifying authorities may choose to collect more detailed data to allow for an in-depth analysis.

Supervisor
The person taking responsibility for day-to-day management of the teacher and assessing their performance. Supervisor includes the equivalent position to principal in early childhood settings. There will be situations where a supervisor is not available to fulfil the role outlined in this process, for example in the case where an applicant’s supervisor is the manager of a centre and does not have an education background. In this situation, the applicant should seek support from a senior person who is in a position to comment authoritatively on the applicant’s teaching.

Written statement
The written statements, along with the details of the three to five referees, comprises the documentation that forms the application to certification.

<tr>
<td>3.3 Use teaching strategies</td>
<td>Support colleagues to select and apply effective teaching strategies to develop knowledge, skills, problem solving and critical and creative thinking.</td>
<td>Work with colleagues to review, modify and expand their repertoire of teaching strategies to enable students to use knowledge, skills, problem solving and critical and creative thinking.</td>
</tr>
<tr>
<td>3.4 Select and use resources</td>
<td>Assist colleagues to create, select and use a wide range of resources, including ICT, to engage students in their learning.</td>
<td>Model exemplary skills and lead colleagues in selecting, creating and evaluating resources, including ICT, for application by teachers within or beyond the school.</td>
</tr>
<tr>
<td>3.5 Use effective classroom communication</td>
<td>Assist colleagues to select a wide range of verbal and non-verbal communication strategies to support students’ understanding, engagement and achievement.</td>
<td>Demonstrate and lead by example inclusive verbal and non-verbal communication using collaborative strategies and contextual knowledge to support students’ understanding, engagement and achievement.</td>
</tr>
<tr>
<td>3.6 Evaluate and improve teaching programs</td>
<td>Work with colleagues to review current teaching and learning programs using student feedback, student assessment data, knowledge of curriculum and workplace practices.</td>
<td>Conduct regular reviews of teaching and learning programs using multiple sources of evidence including: student assessment data, curriculum documents, teaching practices and feedback from parents/carers, students and colleagues.</td>
</tr>
<tr>
<td>3.7 Engage parents/carers in the educative process</td>
<td>Work with colleagues to provide appropriate and contextually relevant opportunities for parents/carers to be involved in their children’s learning.</td>
<td>Initiate contextually relevant processes to establish programs that involve parents/carers in the education of their children and broader school priorities and activities.</td>
</tr>
