Overview

This report provides summary interpretation for a group of individuals measured against the *Australian Professional Standard for Principals*.

Data description

This report summarises the results of 29 individuals.

This report includes the following perspectives:

- Line Manager
- Leadership Team
- Staff
- Peers
- Others

The responses were collected between 30/09/2016 and 14/11/2016.

How this report is organised

This report presents data in a number of ways, allowing you to identify the overall strengths and development needs for a group of principals.

Overview – presents a brief explanation of the talent report and the data collected

Australian Professional Standard for Principals – provides brief definitions of the attributes

Summary results – shows an overview of the strengths and development needs of the group by attribute

Attribute results by rater group – shows the perspectives of each rater group on attribute strength

Highest scoring behaviours – shows what the group does best

Lowest scoring behaviours – shows what the group does least well

Behaviour results by attribute – shows the group's strengths and development needs in detail

Response rate by rater group

The table below presents information for participants who are included in this report. It shows the number and types of raters who provided feedback and the status of these surveys.

- The 'Distributed' column shows the total number of surveys sent out to each rater group
- The 'Received' column indicates how many surveys were returned at the time this report was generated
- The 'Processed' column shows the actual number of surveys included in the report after passing a reliability screen (surveys may be omitted if fewer than 70 % of the behaviours were answered, if a rater indicated a lack of familiarity with a participant, or if a low response rate might reveal the identity of a rater in a protected category)
- The 'Percent' column shows the final percentage of surveys that were included in this report compared to the number of surveys originally distributed

Rater group	Distributed	Received	Processed	Percent
Self	29	28	26	90 %
Line Manager	32	25	23	72 %
Leadership Team	119	102	98	82 %
Staff	383	312	276	72 %
Peers	102	80	65	64 %
Others	125	75	63	50 %
Total Others	761	594	525	69 %

Australian Professional Standard for Principals

The *Australian Professional Standard for Principals* (the Standard) creates and promotes a shared vision, clarity of understanding and a common language around effective and high-impact school leadership.

The Standard sets out what principals are expected to know, understand and do to succeed in their work. It is an integrated model that recognises all good leaders share common qualities and capabilities, which are expressed as three Leadership Requirements. Principals draw upon these three Leadership Requirements within five areas of Professional Practice.

The Standard is based on three Leadership Requirements:

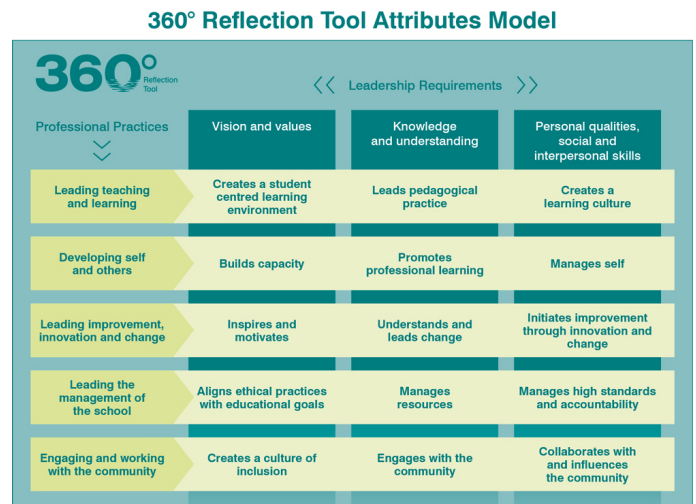

- Vision and values
- Knowledge and understanding
- Personal qualities, social and interpersonal skills

These requirements are enacted through five Professional Practices:

- Leading teaching and learning
- Developing self and others
- Leading improvement, innovation and change
- Leading the management of the school
- Engaging and working with the community

360 ° Reflection Tool

The 360 ° Reflection Tool describes 15 attributes that are evident in the behaviours and actions of high-performing principals and school leaders.

The 360 ° Reflection Tool is underpinned by research. The development involved high level advice from the profession about the behaviours that are demonstrated when enacting the Leadership Requirements and Professional Practices of the Standard.

The 360 ° Reflection Tool does not seek feedback on the quality of behaviours, that is, 'how well' a behaviour is exhibited. Rather, the 360 ° Reflection Tool is designed to capture feedback on the frequency of the behaviours exhibited by principals and school leaders, in accordance with the Standard.

Summary results

The summary results help you to understand the strengths and development needs of the group.

The chart below based on the Total Others' scores represents the degree of consistency with which participants in the group demonstrate each attribute. The dark blue bar shows the percentage of participants where the attribute is seen as a strength in their individual report (with an attribute score greater than or equal to 4.3). The light blue bar shows the percentage of participants who demonstrate the attribute sometimes or often (with an attribute score between 3 and 4.3). The gray bar shows the percentage of participants who demonstrate the attribute never or rarely (with an attribute score less than 3).

A check next to an attribute indicates that it is a strength across the group; 75% or more of the participants demonstrate the attribute as a personal strength.
